

# Tele Radio expands the Panther Industrial Remote Control System with a new transmitter especially suited for crane applications

**Summary:** Tele Radio has updated the Panther industrial remote control system with a PL d rated robust transmitter.

The new Panther PN-T19-2 transmitter from [Tele Radio](#) is compatible with all existing receivers in the [Panther](#) product family. It was initially developed to meet the specific requirements of crane applications, but fits perfectly in a vast array of situations. Just like any Panther transmitter the PN-T19-2 is easy to hold and the robust housing makes it insensitive to shock. It also offers a wide range of programming options. PN-T19-2 comes with a replaceable battery pack containing 3 x 1,5V AAA/LR03 batteries, which when needed is very easy to change without using tools. A rechargeable lithium-ion battery is available as an accessory. Furthermore, the stop function in PN-T19-2 meets the demands for safety classification PL d category 3.

The PN-T19-2 transmitter is available for order.

## About Tele Radio

[Tele Radio](#) develops, manufactures and markets radio control systems for industrial use. The company was founded in Lysekil in 1955 and has since developed into an expansive group, the Tele Radio Group. The head office is in Gothenburg and there are ten subsidiary companies in Europe, the USA and in Asia. In addition to our subsidiary companies we also cooperate with our dealers and partners all over the world.

The research and development of all our products is done by Tele Radio. With almost 60 years of experience we have solid knowledge and experience of radio control systems. Our mission is to "never say no" when it is at all possible to satisfy your needs; our goal is to offer a radio control system for your specific application.
